

The Coalition for College Cost Savings (The Coalition) is pleased to partner with First American Education Finance to provide leasing and asset management services to its member organizations and their member colleges and universities. Through the consolidation of equipment and technology acquisitions from all eligible schools within its member organizations nationally, this Coalition contract offers institutions highly competitive lease rates as an alternative to the expenditure of your capital dollars for equipment and technology purchases. To assist in your leasing decision and management process, First American provides a variety of online tools available to your management team. Whether using budget calculators to assist in projecting cash flows over the life of the lease; or reviewing the current status of all your lease commitments in a single customized, electronic location, these tools can be seamlessly blended into your management and control processes to improve both the efficiency and effectiveness of your finance departments. When the useful life of your leased equipment is complete and you are ready to upgrade to newer technology, First American will take care of all disposal activities of your existing equipment and coordinate with you on its return. A complete turnkey leasing experience is available to you through a single point of contact assigned to each institution within First American's Customer Service Center.

Benefits

Discounted preferred leasing rates

On-line tools for tracking lease payments and lease end dates for management purposes

Life cycle costing techniques for replacing infrastructure and technology

Single Point of Contact for all Customer Service Needs
